Operating Temperature: -65°C to +175°C.

Storage Temperature: -65°C to +200°C.

Note 1: TL = +55°C, L = .375 inch for axial parts. Derate linearly at 0.80% / °C for TL > +55°C. For surface mount devices, US suffix, these currents apply with a maximum end cap temperature of 110°C. Derate linearly at 1.5% / °C above 110°C.

Note 2: Test pulse = 8.3ms, half sine wave.

Note 3: Independent of heatsinking.
