

SG-10LXZ23R

Description

Surface mount package zener type diodes for alternators.
High voltage design with over voltage surge absorption.

Application

Alternator

Features

- Rated current $I_o=35A$
- Reverse voltage $VRM=17V$
- Power zener type

Remarks

Package

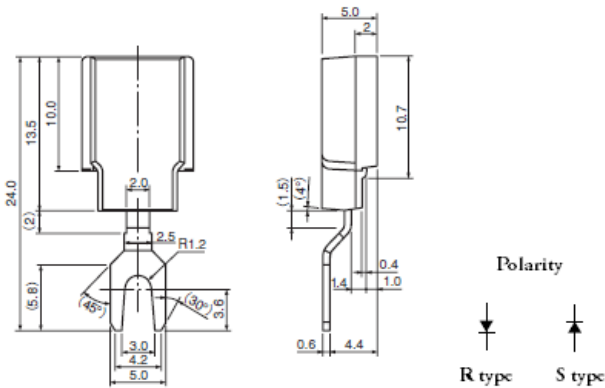

Package Name:SG-10

Specifications

Surge Forward Current	350A
Average Forward Current	35A
Storage Temperature	-40°C~+150°C
VRM(V)	17V
VF(V)	1.05V
Breakdown Voltage	23V ±3V
Class (Normal Type / Zener Type)	Zener Type
Automotive Division	YES
